System 7: 6.0 DAL Apps Compatible with 7.0 Data Access Manager

==========

Article Created: 8 March 1991
Article Last Reviewed: 29 June 1992
Article Last Updated:

TOPIC ----------

Are my current 6.0 Data Access Language applications compatible with the 7.0 Data Access Manager?

DISCUSSION ----------

Yes. Special care was taken to ensure that current System 6 DAL applications will work smoothly with the Data Access Manager in System 7.
