JAZZ: Getting Rid of 0's in the Database Report

========================================================================

If you would like to not print out 0's in your Database Report when the
contents of a field is 0 a formula must be used.
=IF(ISBLANK(FIELD 1)," ",FIELD 1)
This formula should be used in the Record Detail line of your Show Defintion on
the Database Report. Insert your own field names for FIELD 1.
