Logo II: How to print procedures

===

To print procedures using Apple Logo II (128K), type

DRIBBLE 1

which enables the system to print procedures/variables after you type one of
the following commands:

```
PO (name)
POALL
PON (name)
PONS
POPS
POT (name)
POTS
```

(For information on the above commands, see the Logo II reference manual.)

To disable this printing, type:

NODRIBBLE

Apple Technical Communications
