A/UX: Developer Services Offers Developer Support (9/94)

===

Article Created: 29 June 1988
Article Last Reviewed: 6 September 1994

TOPIC ---

A/UX: Developer Services

DISCUSSION --

Some A/UX users have asked about customizing A/UX code, such as writing a
diskless boot routine. Such a task would most likely require A/UX or NFS source
code and licensing.

Anyone wishing to write code for A/UX should contact Developer Services to see
about becoming a Certified Developer. Commercial Certified developers have
access to Developer Technical Support.
