Apple SuperDrive and CD Support: Mac286 and SoftPC

=====
Article Created: 9 February 1989
Article Last Reviewed: 22 August 1991
Article Last Updated: 22 August 1991

TOPIC -----

Neither the Mac286 nor SoftPC supports the Apple SuperDrive (formerly Apple FDHD).

DISCUSSION -----

Although AST and Insignia Solutions plan to support the SuperDrive in the future, neither has set any dates.

The Mac286 and SoftPC have access to a High Sierra CD-ROM disk once you install High Sierra drivers. The High Sierra disk appears as a standard Macintosh volume on the desktop.
