            • For technical accuracy.

TOPIC -------------------------------------------------------

Where can I get information on developing cards for the Macintosh SE/30
PDS (Processor Direct Slot)?

DISCUSSION --------------------------------------------------

A 35-page document is available from APDA titled "Macintosh SE/30
Developer Notes".  This document focuses on the electrical and mechanical
specifications of the Macintosh SE/30's 030 direct slot.  Anyone
developing a card for the Macintosh SE/30 needs this document.

For more information, search under "APDA".
