ImageWriter II: How To Print From Applesoft BASIC Over A Network

==

This article last reviewed: 23 May 1989

To print to an ImageWriter II over a network using Applesoft BASIC follow
this procedure:

1) Ensure that you have run the Chooser II to select the printer that you
   want to address.

2) This code can be used to allow Applesoft BASIC to communicate with the
   chosen ImageWriter II:

```
10    D$=CHR$(4)
20    Print D$; "PR#7"
30    Print "Hello Printer"
40    Print D$; "PR#0"
50    End
```
