HyperCard 1.2.2: Corrects Problem Creating 127th Field

=====

This article last reviewed: 9 August 1989

TOPIC -----

HyperCard 1.0 exhibited a problem that prevented the construction of a 127th field and generated an "error 777" message, and also an "error 1170" when the message box contained the number 128.

Is there a solution yet?

DISCUSSION -----

Yes. HyperCard 1.2.2 does not exhibit this problem.

For more information, search under "HyperCard" and "error" and "field"
