A/UX 2.0: MacTCP and "native TCP/IP"

=====

Article Created: 27 July 1990

### Article Change History

-----  
08/31/92 - REVIEWED  
o For technical accuracy.

### TOPIC -----

Does MacTCP use the A/UX 2.0 "native TCP/IP"?

### DISCUSSION -----

Under A/UX 2.0, MacTCP maps its calls to the "native TCP/IP" calls available under A/UX.

MacTCP maintains the same API in both A/UX and the Macintosh OS, but under A/UX, MacTCP is merely a front end to the existing implementation of TCP/IP.
