A/UX: How to Initialize NFS RPC Statistics (9/94)

=====
Article Created: 12 October 1990
Article Last Reviewed: 6 September 1994

TOPIC -----

How do I initialize NFS RPC statistics?

DISCUSSION -----

The output of the `nfsstat` command is cumulative; statistics are added to the existing total since boot time. By using the "-z" flag option, these statistics can be zeroed. Zeroing the statistics makes it easier to troubleshoot NFS from a known point.

Refer to the A/UX Network System Administration manual chapter on Configuring and Managing the Network File System for more information on `nfsstat`.
