Macintosh IIfx: DCA MacIrma 1.7 Incompatibility

=======================================================================

Article Created: 7 January 1991
Article Last Reviewed: 14 July 1992
Article Last Updated:

TOPIC -----------------------------------------------------------

I find that the DCA MacIrma Entry Emulator does not work with the
Macintosh IIfx. Is there a fix to this problem?

DISCUSSION ------------------------------------------------------

MacIrma Entry Emulator version 1.22 and later is compatible with the
Macintosh IIfx.  Accompanying the MacIrma Entry Emulator version 1.26 is
MacIRMA Workstation software and API.

To locate a vendor's address and phone numbers, use the vendor name as a
search string.
