System 7: Dimmed Label Menu

=====
Article Created: 10 May 1991

Article Change History

09/14/92 - REVIEWED
• For technical accuracy.

TOPIC -----

Why is the Label menu sometimes dimmed?

DISCUSSION -----

The Label menu is available only when an icon has been selected in the Finder. If there are no windows open or icons selected on which the Label menu can have an effect, it will appear dimmed.
