AppleTalk: 32 Device Limit Refers to Physical Connections

=====

Article Created: 29 April 1991
Article Last Reviewed:
Article Last Updated:

TOPIC -----

Is the AppleTalk 32 device limit referring only to physical connections (such as printers, computers, and so on) or is it the total number of logical and physical devices (such as TOPS, FileMaker, etc)?

DISCUSSION -----

The limit of 32 devices is for physical hardware devices such as printers, computers, and so on.
