DAL 1.2: Simultaneous Users Require Unique UICs

=====
Article Created: 8 August 1991
Article Last Reviewed: 29 June 1992
Article Last Updated:

TOPIC -----

Only one user can use DAL at a time. When someone else tries to connect, the message "could not find ADSP server" appears. We are using AppleTalk for VMS 3.0 and DAL 1.2.

DISCUSSION -----

Give each user an individual account. Without a unique UIC, the second connect attempt fails.
