Apple Video Cards that Support Two-Page Monitor (11/94)

=====  
Article Created: 14 May 1991  
Article Reviewed/Updated: 28 November 1994

TOPIC -----

With what Apple video cards support the Two-Page Display monitor?

DISCUSSION -----

The Macintosh Display Card 4•8, Macintosh Display Card 8•24, and Macintosh Display Card 8•24 GC all support the Two Page Display. These cards use the DB15-to-DB25 cable (part number 590-0615).
