A/UX: How It Checks for 32-Bit Clean

=====

Article Created: 4 November 1991

### Article Change History

-----  
08/31/92 - REVIEWED  
o For technical accuracy.

### TOPIC -----

How does A/UX know if something isn't 32-bit clean?

### DISCUSSION -----

It checks a bit in the SIZE resource in the application. See man page for changesize for details on how to change the value of this bit.
