A/UX: Ethernet "ae0 transmitter frozen" Errors (9/94)

===

Article Created: 12 August 1991
Article Reviewed/Updated: 23 September 1994

TOPIC ---

Ethernet networking won't come up under A/UX. There are many "ae0 transmitter
frozen" errors.

DISCUSSION ---

Here are two things to check:

• Is the EtherTalk card set for thin or thick Ethernet? Make sure the
  jumper is configured appropriately for whichever network you are using.

• Is the network terminated? If there is no terminator at the end of the
  cable, A/UX produces an endless string of "ae0 transmitter
  frozen/resetting" errors.
