LaserWriter IIf & IIg: Configuration and Parameter Info Sheet

======================================================================

Article Created: 10 December 1991
Article Last Reviewed:
Article Last Updated:

TOPIC -----------------------------------------------------------

When I upgraded the RAM in a LaserWriter IIf from 2MB to 5MB, the
LaserWriter Serial Number changed.  Why is this?

DISCUSSION ------------------------------------------------------

The LaserWriter Serial Number on the Printer Configuration and Parameter
Information sheet is random, and changes every time a LaserWriter IIf or
IIg is turned off and on.
