TOPIC ---

Will the System 7 Tune-up work under A/UX 3.0?

DISCUSSION --

System 7 Tune-up 1.0 is pre-installed on A/UX 3.0, but the files are
modified from the Macintosh operating system versions. Tune-up 1.1.1 should not
be installed because it is not needed. Don't replace A/UX System 7 Tune-up
items with the Macintosh OS versions. However, you may install the new
LaserWriter driver, if desired.
