Multivendor Network Solutions Guide: How to Order

===

Article Created: 9 October 1992
Article Reviewed/Updated: 27 July 1993

TOPIC ---

How can I order "Apple Multivendor Network Solutions Guide"?

DISCUSSION --

The "Apple Multivendor Network Solutions Guide" is available from
Apple StartingLine (formerly Apple InPrint). Order part number M6198/D.

This guide describes networking solutions and environments. It also gives
company contact information for the third-party companies that sell
networking products compatible with Apple products.

The Solutions section provides overviews and specific technology for:

• Data links
• Internetworking
• Network systems
• Network services
• Application development tools
• Network management tools
• Telecommunications
• Network support and training services

The Environments section describes:

• A/UX
• Banyan
• Digital Equipment Corporation
• Hewlett-Packard
• IBM
• Microsoft
• Novell

- Prime
- Sun Microsystems
- Tandem
- UNIX
- Wang

Article Change History:
27 July 1993 - Company title updated from Apple InPrint to Apple StartingLine.
13 January 1993 - Reviewed, to summarize the contents of this guide.
