Ethernet NB Card and Quadra Built-in Ethernet: Bus Width

=====  
Article Created: 11 November 1992

TOPIC -----

Does the Apple Ethernet NB card use a 16-bit data path or a 32-bit data path?

DISCUSSION -----

The Apple Ethernet NB card and the Ethernet LC card use a 16-bit data path.

The Macintosh Quadra built-in Ethernet interface utilizes a 32-bit data path.
