LaserWriter Pro 600: Description (Discontinued)

==

Article Created: 6 January 1993
Article Reviewed/Updated: 30 May 1996

TOPIC ---

This article describes the Apple LaserWriter Pro 600 printer.

DISCUSSION --

The Apple LaserWriter Pro 600 is a compact, expandable network printer that
makes use of Apple's FinePrint technology. With the PhotoGrade Upgrade Kit,
the LaserWriter Pro 600 can use PhotoGrade to print more than 91 levels of
gray and can print documents at 600 dpi (dots per inch).

LocalTalk allows for plug-and-play connection to an AppleTalk network system,
as well as parallel and serial ports for connection to DOS and Windows
computers. All ports stay active, so you can send documents to any port without
having to change a single setting.

The LaserWriter Pro 600 comes with two paper trays and options that include a
500-sheet paper cassette and a 75-envelope feeder. That brings total paper
capacity to 850 sheets.

LASERWRITER PRO 600 FEATURES

Print quality

• 300 dpi with FinePrint for smooth text

The PhotoGrade Upgrade Kit adds:
• 300 dpi printing with PhotoGrade for superior images and graphics
• 600 dpi for high-quality text

Multiplatform compatibility

- Simultaneous connection to LocalTalk, parallel, and serial ports
- Simultaneous connection to Macintosh, MS-DOS, and Windows computing
  environments
- Adobe PostScript Level 2 software and HP LaserJet IIP (PCL 4+) emulation

Convenience and flexibility

- Two paper trays included (100 and 250 sheet capacity)
- Optional envelope feeder (75-envelope capacity)
- Optional 500-sheet feeder
- Maximum capacity with options: 850 sheets

Power and speed

- 25-MHz 68030 microprocessor, plus ASICs and I/O processors

Memory

- 4MB of RAM, plus 4MB PhotoGrade Memory Kit, for a total of 8MB.
  Expandable to 32MB
- 2MB of ROM
