PowerBook Duo 230 with Express Modem (2/93)

===

Article Created: 9 February 1993

TOPIC ---

This article describes a new PowerBook Duo 230 configuration with built-in
Express Modem.

DISCUSSION --

This new product adds a high-end configuration to the line of PowerBook Duo
notebook computers. It includes 4MB of RAM (expandable to 24MB), a 120MB hard
drive, and the Express Modem.

The internal PowerBook Express Modem provides:
• 14,400bps data send/receive
• 9,600 fax send/receive
• support for V.42bis data compression, which results in an effective data
  throughput of up to 57,600bps.

Note: bps = bits per second, or Baud.
