LaserJet 4M Driver: Fonts Not Downloading in System 7.1 (5/93)

===

Article Created: 25 May 1993

TOPIC ---

I am using a Hewlett Packard LaserJet and System 7.1. My fonts won't
download using the HP 4M driver.

DISCUSSION --

To solve the proble move the printer (outline) fonts to the Extensions
folder. Version 2.12 of the Hewlett Packard 4M driver does not recognize
the Fonts folder in System 7.1.

Version 2.2 of the HP 4M driver does recognize the Fonts folder and
is recommended for use with System Software 7.1.
