PowerBook File Assistant: Automatic Synchronization (7/95)

=====  
Article Created: 7 June 1993  
Article Reviewed/Updated: 20 July 1995

### TOPIC -----

This article discusses how to turn on automatic synchronization in the Synchronizer of the File Assistant software.

### DISCUSSION -----

To update files you have linked automatically whenever a change is made to either of the linked files, choose Automatic from the Synchronize menu with the pair selected. A message appears whenever files are being updated.

You can set up your PowerBook so files are updated every time you connect with another disk. Follow these steps:

Step 1  
Choose Automatic from the Synchronize menu with the pair selected.

Step 2  
Use the AutoRemounter control panel to reconnect to shared disks.

Step 3  
Drag an alias of the PowerBook File Assistant icon to the Startup Items folder (the PowerBook System Folder).

Article Change History:  
20 Jul 1995 - Corrected misspelling; reviewed and reformatted.
