Apple MessagePad: How to Power On (7/96)

===

Article Created: 30 July 1993
Article Reviewed/Updated: 01 July 1996

TOPIC ---

This article describes how to power on your Apple MessagePad.

DISCUSSION --

Here is how to power on your Apple MessagePad for the first time:

1) Insert a fresh set of batteries in your Apple MessagePad.

2) Remove the battery cover and press the reset switch with the tip of your
   stylus. This resets your Apple MessagePad.

3) Slide the power switch down and let it spring back. The power switch
   is located on the left side of the Apple MessagePad.

4) Take the Newton's pen and tap the Xs that are displayed on the screen.
   This will align your Apple MessagePad's screen.

After you have powered on your Apple MessagePad for the first time, you can
power it on on and off by sliding the power switch down and letting it spring
back.

This article is one of many available through the Apple Fax center. For a
complete list of available fax documents, search the Tech Info Library for Apple
Fax Document Index or call the Apple Fax line at 1-800-505-0171 and select
document number 20000 (Apple Fax - Document Index - Product Support Literature).
The Apple Fax center is available free of charge 24 hours a day, 7 days a week.

Article Change History:
01 Jul 1996 - Added Fax Doc Word
05 May 1995 - Changed reference from Newton to Apple MessagePad.

28 Sep 1994 - Reviewed for technical accuracy.
