Apple MessagePad: Using Foreign Characters in Word List (5/95)

===

Article Created: 27 August 1993
Article Reviewed/Updated: 5 May 1995

TOPIC ---

I can enter words that contain non-English characters (such as "ä", "é", or "ø")
into the Apple MessagePad's word list. Why do these words appear without the
accent?

DISCUSSION --

You can save words with non-English characters to the word list of the U.S.
version of the Apple MessagePad. These words, however, are displayed without
accents and the Apple MessagePad do not recognize non-English characters when
you write them. We recommend that you do not enter words with non-English
characters into your word list.
