PowerShare: Software Components (9/93)

=====================================================================

Article Created: 28 September 1993

TOPIC -----------------------------------------------------------

What software components are included in the PowerShare Server Package?

DISCUSSION ------------------------------------------------------

The PowerShare Server Package consists of the following software
 components:

1) The PowerShare Catalog Server, which provides catalog and
   authentication services.

2) The PowerShare Mail Server, which provides messaging and mail services.

3) PowerShare Admin,an application which provides an administrator with
   the ability to manage and monitor the servers and catalog. With this
   application, you can administer a PowerShare System from any Macintosh
   on the network.

4) PowerShare Easy Setup, an application which allows you to quickly set
   up a PowerShare System that includes one PowerShare Catalog Server and
   one PowerShare Mail Server on a single Macintosh The PowerShare System
   and services.
