Ofoto: Resetting Window Locations (11/93)

=====
Article Created: 2 November 1993

TOPIC -----

While in the Ofoto application, some window title bars are under the menu bar and I can't move them. How do I reset the window locations?

DISCUSSION -----

According to Light Source, all you need to do is quit Ofoto and throw away the Preferences file. The path is:

System Folder
 Preferences
 Ofoto Folder
 PreferencesFolder
 Ofoto Preferences
