PowerTalk Key Chain: Resetting a Forgotten Password (10/95)

=====  
Article Created: 16 November 1993  
Article Reviewed/Updated: 20 October 1995

TOPIC -----

This article tells how to reset a PowerTalk password if a user forgets it.

DISCUSSION -----

Follow these steps:

Step 1  
Turn off collaboration services in the PowerTalk Setup control panel.

Step 2  
Throw away the PowerTalk Setup Preferences file in the Preferences folder.

WARNING: All Key Chain, Preferred Personal Catalog, Mailbox Preferences, I'm at, and PMSAMS (Personal Message Access Modules) will be lost when you delete the PowerTalk Setup Preferences. Please make a note of your settings.

Step 3  
Restart the computer.

Step 4  
Turn on collaboration services in the PowerTalk Setup control panel.

Step 5  
Restart the computer

Step 6  
Double-click on the mailbox to redefine PowerTalk services.

Article Change History:  
20 Oct 1995 - Included two additional steps.

19 Jan 1995 - Added words forgot and forget.

08 Dec 1994 - Provided more information on PowerTalk Setup Preferences.
