Performa: Compton's CD Text Difficult To Read (4/94)

======================================================================

Article Created: 5 April 1994

TOPIC -----------------------------------------------------------

I'm having some problems with my Compton's CD, text is displayed in an Old
English font which makes it difficult to read.

DISCUSSION -----------------------------------------------------------

To resolve this issue, there are two font files you need to remove from your
Fonts folder.  The two font files are:

(1) Remove (DO NOT TRASH) any font relating to American Heritage Dictionary in
the Fonts folder inside the System Folder.

(2) Remove (DO NOT TRASH) any font relating to Holiday font suitcase in the
Fonts folder inside the System Folder.

Apparently, these two font families conflict with Compton's normal accessing of
fonts.
