Apple Media Tool 1.1: Demo Projects Can't be Opened (5/94)

=====  
Article Created: 31 May 1994

TOPIC -----

Customers with the Apple Media Tool Demo CD are getting a "Program error (1)" when attempting to open the Demo projects with the released version of Apple Media Tool 1.1. The projects cannot be opened with AMT 1.0 either. They can only be opened with AMT Demo 1.1.

- Is there a way to open the demo projects with AMT 1.1?
- Do users have any rights to use any of the stuff that is in the Demos?

DISCUSSION -----

This is a bug, that Apple Engineering is aware of, and they are looking into it.
