PowerBook 500 series: Video Adapter Cable Pinouts (9/95)

======================================================================

Article Created: 05 July 1994
Article Reviewed/Updated: 25 September 1995

TOPIC -------------------------------------------------------------

I would like the pinouts for the external video cable used with the PowerBook
500 series computer.

DISCUSSION --------------------------------------------------------

The PowerBook 520 and 540 computers have the same type VID-14 video output
connector as earlier PowerBook models.

An adapter cable was included with some earlier models of the PowerBook that
allows you to use a standard Apple video cable. If you didn't get the cable, it
can be purchased separately. It is available as part number M3927LL/A.

Begin_Table
```

Pin		Signal Name	Description
VID-14	DB-15		
1	2	RED.VID	Red video signal
2	1	RED.GND	Red video ground
3	4	SENSE0	Monitor sense signal 0
4	12	/VSYNC	Vertical synchronization signal
5	3	/CSYNC	Composite synchronization signal
6	11	GND	CSYNC and VSYNC ground
7	6	GRN.GND	Green video ground
8	5	GRN.VID	Green video signal
9	7	SENSE1	Monitor sense signal 1
10	14	HSYNC.GND	HSYNC ground
11	10	SENSE2	Monitor sense signal 2
12	15	/HSYNC	Horizontal synchronization signal
13	9	BLU.VID	Blue video signal
14	13	BLU.GND	Blue video ground
—	8	N.C.	Not connected

```
Shell      Shell       SGND            Shield ground
```

End_Table

Article Change History:
25 Sep 1995 - Added that cable didn't come with all models.
