PowerBook: Sizes and Suppliers for Torx Drivers (1/97)

======================================================================

Article Created: 29 March 1995
Article Reviewed/Updated: 24 January 1997

TOPIC -------------------------------------------------------

Where can I obtain the Torx drivers used on the PowerBook computers?

DISCUSSION --------------------------------------------------

PowerBook 100 computers use the Torx #8 and Torx #10 driver size.

PowerBook 200 and 2300 series computers use the Torx #8 and either Torx #6
driver size or phillips screws (for the floppy mechanism).

PowerBook 500 series computers use the Torx #6 and Torx #8 driver size.

PowerBook 5300 series computers use the Torx #8 driver size.

PowerBook 1400 series computers use the metric phillips screws 00 and 01.

Suppliers for these tools include:
--------------------------------
* Apple Computer: (available through your local Service Provider)
  Torx #6 077-0064
  Torx #8 077-0677
  Torx #10 077-0676

* Parts Express 800-338-0531

* Snap-On Tools (call 800-555-1212 for local Snap-On office)

* Jensen Tools, Inc. 800-426-1194
