Internet Server For WWW: Errors in Documentation (8/95)

======================================================================

Article Created: 27 June 1995
Article Reviewed/Updated: 18 August 1995

TOPIC -----------------------------------------------------------

This article describes an error in the documentation for the Apple Internet
Server Solution for the World Wide Web.

DISCUSSION ------------------------------------------------------

Configure MacTCP
----------------
Error:
Steps 2 to 4 are out of order. You cannot type in an IP number until you set
addressing for manual.

Correction:
When installing MacTCP it defaults to manual addressing.

Article Change History:
18 Aug 1995 - Removed manual correction for MacTCP Ping, manual is correct.
12 Jul 1995 - Changed title for consistency.
