PowerBook Duo 2300c/100: Description (4/97)

=====

Article Created: 2 August 1995
Article Reviewed/Updated: 29 April 1997

TOPIC -----

This article contains a description of the Macintosh PowerBook Duo 2300c/100 computer.

DISCUSSION -----

Overview
=====

The Macintosh PowerBook Duo 2300c/100 is Apple's smallest, lightest PowerBook computer, delivering PowerPC processor performance in a compact, flexible, and expandable system. With complete compatibility with existing PowerBook Duo 200 series peripherals and accessories, the PowerBook Duo 2300c/100 provides advances in performance without sacrificing your investment in batteries, memory, modems, or docking solutions.

The PowerBook Duo 2300c/100 brings a new level of power and performance to subnotebook computing. It includes an integrated 9.5-inch active-matrix display that offers two modes—640 by 480 pixels with 256 colors, and 640 by 400 pixels with up to thousands of colors.

An improved Apple trackpad provides increased functionality. The PowerBook Duo 2300c/100 comes with a large hard disk drive, and its memory can be easily expanded to 56 megabytes. Its advanced 100-megahertz PowerPC 603e processor not only gives this PowerBook Duo the power to handle the most complex tasks easily, but also enables it to run Insignia Solutions SoftWindows emulation software for DOS and Windows compatibility.

With the PowerBook Duo 2300c/100, you can connect to a wide range of resources—no matter where you are. Its file-transfer options include System 7 file sharing (with LocalTalk or other serial cables), as well as a configuration with an internal Express Modem for using Apple Remote Access or other on-line

services. When you're back at the office, simply insert your PowerBook Duo computer into a PowerBook Duo Dock Plus, and you're instantly working with a complete desktop Macintosh system. And with third-party docking solutions, you can take advantage of PC Card expansion capabilities and DOS compatibility solutions.

The PowerBook Duo 2300c/100 also comes with the PowerBook Mobility Bundle, a combination of communications, compatibility, power management, security, file-transfer, and entertainment software.

In short, the PowerBook Duo 2300c/100 provides outstanding performance and innovation in the smallest, lightest PowerBook computer—making it the ideal solution for mobile computing.

Features

=====

High Performance

- Uses a 100-MHz PowerPC 603e RISC processor
- Provides Power Macintosh performance in a subnotebook computer
- Provides 8 MB or 20 MB of RAM, expandable to 56 MB
- Includes an internal 750 MB or 1.1 GB hard disk drive

Innovative New Design

- Provides a 9.5-inch (diagonal), backlit, active-matrix color display for easy viewing in up to thousands of colors
- Includes improved Apple trackpad for increased functionality
- Is the smallest, lightest PowerBook computer
- Gives you the flexibility to carry just what you need

Broad Expansion Capabilities

- Comes with a built-in serial port for peripheral devices and networking
- Includes slots for an internal modem and additional RAM
- Features a docking connector for connection to a variety of docking devices that provide desktop computing capabilities
- Provides complete compatibility with existing PowerBook Duo 200 series peripherals and accessories

Easy Communications Capabilities

- Comes equipped with Apple Remote Access and PowerTalk client software
- Is available with PowerBook Duo Express Modem

Preinstalled Software

- Comes with System 7.5
- Provides active assistance in learning new features through Apple Guide
- Comes with the PowerBook Mobility Bundle, software designed to

enhance mobile computing

Ordering Information

=====

PowerBook Duo 2300c/100

- PowerBook Duo 2300c/100 computer with 8 MB of RAM and internal 750 MB hard disk drive, Battery and AC adapter, System software version 7.5.2, PowerBook Mobility Bundle, Complete setup, learning, and reference documentation, Limited warranty
- Order No. M4220LL/A

PowerBook Duo 2300c/100

- Same as Order No. 4220LL/A, but with 20 MB of RAM, internal 1.1 GB hard disk drive, and Apple Express Modem
- Order No. M4221LL/A

PowerBook Duo 8 MB Memory Expansion Kit*

- Order No. M4185LL/A

PowerBook Duo Dock Plus

- Order No. M4219LL/A

PowerBook Duo Floppy Adapter

- Order No. M4180LL/A

Express Modem for PowerBook Duo*

(U.S., Canada, Japan)

- Order No. M4186LL/A
