Open Transport: Not Compatible With AppleTalk Phase 1 (8/95)

======================================================================

Article Created: 16 August 1995

TOPIC -----------------------------------------------------------

Is Open Transport compatible with AppleTalk Phase 1 networks?

DISCUSSION ------------------------------------------------------

No. Open Transport will not work with AppleTalk Phase 1 networks, or with the
AppleTalk Phase 2 Upgrade Utility. Customers using AppleTalk Phase 1 will have
to upgrade to AppleTalk Phase 2.
