System 7.5.2 Printing Fix: Read Me File (10/95)

=======================================================================

Article Created: 4 October 1995
Article Reviewed/Updated: 10 October 1995

TOPIC -------------------------------------------------------------

This article contains the ReadMe file included with the System 7.5.2 Printing
Fix 1.0.2 extension posted online.

DISCUSSION --------------------------------------------------------

Macintosh System 7.5.2 Printing Fix Read Me

What is the Macintosh System 7.5.2 Printing Fix?

This extension fixes a printing problem that may occur on Power Macintosh 7200,
7500, 8500, and 9500 computers using System 7.5.2. Without this fix, your
computer may freeze if you attempt to print on a network-based printer that is
already busy, and it may be necessary to restart your computer.

To install this extension follow these steps:

Step 1
------
Locate the System Folder on your computer's hard disk. Don't open the System
Folder.

Step 2
------
Drag the file named "7.5.2 Printing Fix" to the System folder.

Step 3
------
A message appears asking if if you want the 7.5.2 Printing Fix to be put into
the Extensions Folder. Click OK.
```

```
Step 4
------
Under the Special menu, choose Restart.
