PowerBook 100: Use Apple HD SC Setup 7.3.2 or Later (10/95)

=====

Article Created: 24 October 1995

TOPIC -----

I am trying to reinitialize the hard drive in my PowerBook 100 using the Apple HD SC Setup utility on the original Disk Tools disk that came with my computer. Each time I try, I get an error ID=02. What is wrong?

DISCUSSION -----

This was an issue with the version of Apple HD SC Setup included with your PowerBook 100 computer. This was fixed with Apple HD SC Setup version 7.3.2 which first shipped with System 7.5. This version is available from online services.

These articles can help you locate Apple HD SC Setup:
