Apple MessagePad: List of Accessories Available (4/96)

==

Article Created: 24 October 1995
Article Reviewed/Updated: 11 April 1996

TOPIC ---

This article describes the accessories available for the Apple MessagePad 120.
Some accessories are only available with the Newton 2.0 OS. Accessories
Requiring Newton 2.0 OS are marked as such.

DISCUSSION --

MessagePad Accessories
======================

Now you can make your Apple MessagePad personal digital assistant (PDA) even
more valuable, and make it work even more efficiently.

Because no matter which MessagePad product you have, you can choose from a broad
range of accessory products -- from connectivity solutions to battery
enhancements to storage options.

With these optional accessories, you can print letters, send and receive faxes,
receive wireless messages and pages, connect to your personal computer, or gain
access to information on your network. You can also work for hours without
having to change batteries. And you can protect your MessagePad -- and its
accessories -- in a leather carrying case, wherever you go.

Accessories
===========

Newton Connection Kits

These kits connect your Apple MessagePad or other Newton technology-based
products to a Windows PC or an Apple Macintosh computer to create, view, edit,
synchronize, and back up information. They also enable you to move Newton
software from your personal computer to your Newton device.

Newton Connection Utilities

This software allows your MessagePad 120 with Newton 2.0 operating system to connect to your Windows-based or Macintosh computer to create, view, edit, synchronize, and back up information with popular personal computer applications, and to gain access to your personal computer's information while at your desk or from a remote location.

Newton Press

This program allows you to publish electronic documents such as travel itineraries, reference books, or sales charts on your personal computer for viewing and annotating on your MessagePad.

Newton Keyboard

Now you can enter information into your MessagePad 120 as fast as you can type. The touchtype comfortable keyboard is lightweight and portable and comes with an attractive carrying case, so you can take it wherever you take your MessagePad. It comes in several international versions.

Power Adapter

The Power Adapter lets you run your MessagePad or Fax Modem using AC power and rechargeable battery pack for the MessagePad 110 and 120. It comes in several versions to meet international power requirements.

Rechargeable Battery Packs

These rechargeable nickel-cadmium battery packs can be one of the most effective ways to keep your MessagePad running.

Battery Booster Pack

Plug this portable pack's cable into your MessagePad and its eight AA alkaline batteries add hours of running time. Batteries are not included.

MessagePad Charging Station

Plug your MessagePad 110 or 120 into this charging station to run it on AC power while recharging its batteries. You can simultaneously quick-charge its external battery pack in two to three hours.

Battery Pack Recharger

This recharger quickly recharges battery packs for your MessagePad or MessagePad 100. One rechargeable nickel-cadmium battery pack is included.

Print Pack

The Print Pack allows you to use your parallel printer with your MessagePad. It works with most popular laser, dot-matrix, portable ink-jet, and thermal

printers, as well as printers compatible with MS-DOS and Windows-based
computers.

2 MB and 4 MB Flash Storage Cards

Use the 2 MB or 4 MB Storage Card to increase the storage capacity of your
MessagePad, to back up your information, and to run more applications.
Carrying Case This case protects your MessagePad 110 or 120 and your add-in PC
cards when you take them on the road. It's made of durable black synthetic
leather and stays securely closed.

Leather Carrying Case

The leather carrying case has room for add-in PC cards and lots of business
cards, and has a zipper to keep everything where it belongs.

Communications System Carrying Case

Use this synthetic-leather carrying case to hold your MessagePad or MessagePad
100 and accessories—from the Fax Modem to storage cards.

MessagePad Telescoping Pen

This pen is designed to fit perfectly in your MessagePad 110 or 120.

| | | MessagePad Model |
| | | Orignal & MP 100 | MP 110 & MP 120 |
Product Name	Technical Specifications
