Power Mac 5200: Ext. Video Doesn't Support 12-in. RGB (1/96)

=====
Article Created: 8 January 1996

TOPIC -----

Can I use an Apple 12-in. RGB display with the Power Macintosh 5200 External Video Connector?

DISCUSSION -----

No, the Power Macintosh 5200 series External Video Connector (P/N M4099LL/A) does not support the Apple 12-in. RGB display.
