Network Server 500 & 700: Using a One Button Mouse (2/96)

===

Article Created: 16 February 1996
Article Reviewed/Updated: 26 February 1996

TOPIC ---

This article describes how to obtain three button mouse functionality with a one button mouse.

DISCUSSION --

The mouse most commonly used with AIX has three buttons. If you are using a one-button mouse, you can use the arrow keys on the keyboard for the middle and right mouse buttons, as follows:

• If you need to use the right mouse button, press the Right Arrow key.
• If you need to use the middle mouse button, press the Left Arrow key.
