Portable StyleWriter: Out of Paper Error (6/96)

==

Article Created: 17 June 1996

TOPIC ---

I have a Portable StyleWriter and when I choose Print, a dialogue box appears
telling me that the printer is out of paper, but the printer has paper loaded.
What am I doing wrong?

DISCUSSION --

In the Print dialogue box there is an option for Feed: Automatic or Manual. If
Manual is selected, the printer will prompt you to insert a sheet of paper. If
Automatic is selected, you will not see this dialogue box.
