Quality Software Bundles: Description (10/96)

=====

Article Created: 16 October 1996

TOPIC -----

This article contains the description for the Apple Quality Bundles which consists of the following different bundles:

- Early Learning Kit
- It's Elementary!
- College in Mind?
- Extreme Fun Pack

DISCUSSION -----

The Apple Quality Bundles are new value-added software solutions for home learning and entertainment. The collection features award-winning programs from leading developers of home learning and entertainment software, and is part of Apple's commitment to offering the best value to its customers, and to utilize its expertise in education to bring learning home. The packs are above and beyond the extensive solutions already packaged with Macintosh Performa computers.

Because these kits supply up to eight programs for one low price, they present an ideal opportunity for Performa owners to expand their learning and entertainment software libraries with proven titles hand-picked by Apple. The kits are designed for preschoolers, elementary school students, college-bound teenagers, and gamers of all ages. Because there are so many programs in each pack, the Quality Bundles provide longevity of use for the family, increasing their value even more.

Early Learning Kit

=====

With eight leading programs included, the Early Learning Kit gives preschoolers a head start in preparing for school. Richly interactive multimedia software helps kids develop basic skills and knowledge, including letter and word recognition, vocabulary, numbers and counting, art, and music.

The software makes learning fun and provides lots of activities for families to share.

Included Software

- Playskool Puzzles by Hasbro Interactive
- Sesame Street, Let's Make a Word by Creative Wonders
- How Many Bugs in a Box? by Simon & Schuster
- Millie's Math House by Edmark
- FisherPrice Sing-Alongs by Davidson
- Putt-Putt Saves the Zoo by Humongous Entertainment
- Jump Start Kindergarten by Knowledge Adventure
- Kids Art Center by Creative Wonders

It's Elementary!

=====

This set of eight engaging, interactive programs helps youngsters ages seven to ten build the knowledge and skills needed in elementary school. Creative multimedia programs cover all the major subject areas, including language arts, math, science, and social studies.

Included Software

- Counting on Frank by Creative Wonders
- What's the Secret? by Imation
- Wide World of Animals by Creative Wonders
