Apple Modems: CCITT Compatibility

=====

Article Created: 14 May 1991
Article Last Reviewed: 29 May 1991
Article Last Updated:

TOPIC -----

Are both Apple modems CCITT compatible?

DISCUSSION -----

The 2400 baud modem is CCITT V.22A/B, CCITT V.22bis compatible. The personal modem is not.

CCITT is the International Telephone and Telegraph Consultative Committee.
